

- ❖ Review the concept of one-fourth of an hour. Tell your child that dividing in fourths gives four equal parts. We call a fourth of an hour a quarter hour, and it is equal to 15 minutes.
- ❖ Say, “When we divide an hour in quarter hours, the minute hand has four positions: 12, 3, 6, and 9. How many minutes are in a quarter hour?” Put the minute hand on the 12. Move it clockwise, to the right, and have the child count by fives. Each numeral on the clock represents five minutes. There are fifteen minutes in a quarter hour. As the minute hand moves to the quarter hour positions around the clock, the hour hand moves by fourths between the current hour and the next hour. For example, at 7:00 the minute hand is on the 12 and the hour hand is on the 7. At 7:45 the minute hand is on the 9, and the hour hand is three-fourths of the way between the 7 and 8.

- ❖ Show a telling time flashcard (to the quarter hour), and have the child move the hour hand and minute hand to the correct positions.
- ❖ Have the child complete worksheet 2a independently.

Part A, Answers:

1. 1:15 2. 5:45 3. 3:00

Part B, Answers:

Part C, Answers:

0, 5, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60

Part D, Answers:

0, 15, 30, 45, 60

Part E, Answers:

1. 97 2. 7 3. 66
 4. 24 5. 43 6. 39
 7. 75 8. 81 9. 16
 10. 59 11. 65 12. 8

Part F, Answers:

\$ 8.75
 + 3.75
 \$ 12.50

Physical Education:

- ❖ Dribbling is a way to move a soccer ball on the field. Soccer players wear cleats on the field. If your child doesn't have cleats, have him wear athletic shoes. Go to the backyard, a park, or a soccer field and teach the child to dribble the soccer ball. Use a soccer ball at reduced pressure (not fully-inflated).
 - Have the child dribble the soccer ball using the inside of his feet. Gently kick the ball with the inside of one foot. Jog to the ball as it rolls, and kick it with the inside of the other foot. Continue to dribble the ball down the length of the area.
 - Teach the child to stop the ball using a toe-tap. As the ball is rolling, place the toe of his shoe on top of the ball. This will stop the ball.
 - Have him turn around and dribble back using the outside of his feet. This can be more difficult, but it is important to learn to use all parts of the foot.
